SECTION 6 - HEALTH HAZARD DATA and FIRST AID INFORMATION - continuedROUTES OF ENTRY: Inhalation Skin Ingestion

HEALTH HAZARD: (ACUTE AND CHRONIC): May cause eye irritation. When wet will develop sufficient heat to cause burns if a large mass, such as a cast of a hand or arm, is kept in contact with skin while hardening. Inhalation may cause respiratory irritation. Ingestion may cause obstruction due to setting reaction.

SIGNS AND SYMPTOMS OF OVEREXPOSURE: Eye irritation, coughing, sneezing, nasal irritation

CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE: Pre-existing upper respiratory and lung diseases.

EMERGENCY FIRST AID PROCEDURES:

EYES: Flush eyes with water for 15 minutes. Seek medical attention if irritation develops.

SKIN: Wash with water for at least 15 minutes.

INHALATION: Remove to fresh air.

INGESTION: Plaster hardens when wetted and, if ingested, may result in obstruction. Seek medical attention.

SECTION 7 - PRECAUTIONS FOR SAFE HANDLING AND USE

IN CASE OF RELEASE OR SPILL: Sweep or vacuum material into waste container for disposal. Avoid creating dusty conditions. Do not wash into sewers, may plug drains. If already mixed with water, scrape up and wash to remove residue.

WASTE DISPOSAL METHOD: Follow local, state, federal regulations for inert solids.

STORAGE, HANDLING, AND SPECIAL PRECAUTIONS: Ensure proper ventilation. Respiratory and eye protection should be used in dusty conditions. Store at room temperature and humidity.

SECTION 8 - CONTROL MEASURES

RESPIRATORY PROTECTION: Provide general ventilation and local exhaust ventilation to meet TLV requirements. When dusty conditions exist wear an approved NIOSH/MSHA dust mask.

VENTILATION: Local Exhaust: Yes Mechanical: Special: N.A. Other: N.A.

PROTECTIVE GLOVES: Under normal conditions no protective gloves should be necessary

EYE PROTECTION: Goggles

OTHER PROTECTIVE CLOTHING OR EQUIPMENT: Eye wash station
