

Love
your smile
with reCALDENT
gum

Long-lasting flavoured
gum in White Clear Mint

Healthier teeth

RECALDENT gum contains 1.2%
RECALDENT™ (CPP-ACP).

RECALDENT™ (CPP-ACP) is a revolutionary ingredient that stabilises and delivers high quantities of calcium and phosphate, which are the essential building blocks for teeth.

RECALDENT™ (CPP-ACP) is derived from milk casein, sourced from the best cow herds in Australia and New Zealand and then refined at a purpose built manufacturing location in Melbourne, Australia.

reCALDENT gum is clinically proven

In 2008, the results of a double-blind randomised clinical trial confirmed the efficacy of adding RECALDENT™ (CPP-ACP) to a sugar-free gum.

2,720 adolescent from 29 schools in Victoria, Australia were randomly selected to chew 3 times per day either a sugar-free gum or an identical gum containing RECALDENT™ (CPP-ACP)

Using radiographs to monitor lesions, the trial results concluded that RECALDENT™ (CPP-ACP) sugar-free gum significantly slowed progression and enhanced regression of approximal caries (decay between teeth) relative to a control sugar-free gum.

The Anticariogenic Effect of Sugar-Free Gum Containing CPP-ACP Nanocomplexes on Approximal Caries Determined Using Digital Bitewing Radiography M.V. Morgan, G.G. Adams, D.L. Bailey, C.E. Tsao, S.L. Fischman, E.C. Reynolds Caries Res 2008;42:171–184

Love your smile

reCALDENT gum helps your teeth in many ways

Chewing reCALDENT sugar-free gum with long lasting flavours helps stimulate saliva flow. Saliva keeps our mouths healthy and is nature's way of protecting our teeth.

The inclusion of RECALDENT™ (CPP-ACP) into a sugar-free gum enhances the benefits of stimulated saliva by helping:

- protect teeth from erosive mineral loss
e.g. acidic beverages
- inhibit plaque formation and growth of harmful bacteria on teeth
- protect teeth from decay-causing acid in plaque
- promote enamel subsurface remineralisation

Recommendation: reCALDENT gum

Name of Patient _____

File _____ Date _____

You have been prescribed reCALDENT gum to help

Chew reCALDENT gum

☐ One piece 3 times per day after eating

☐ Two pieces 3 times per day after eating

☐ _____

reCALDENT gum contains RECALDENT™ (CPP-ACP), a unique ingredient developed at The School of Dental Science, The University of Melbourne, Victoria, Australia. RECALDENT and RECALDENT Device are trademarks used under licence. reCALDENT gum should not be used by people with milk protein allergies.
